

I strongly oppose of lifting the restrictions of nudity and profanity that was made by the FCC. You may have reduced your complaints by 70%, but if you lift this restriction, you will upgrade your workload by 2000% because of all the complaints you will be receiving! In fact, I think the restrictions need to be stricter! I still see profanity and sexual situations on TV where it shouldn't be. No one wants to watch that trash!!! The stuff you see on TV now days is nothing compared to what I watched as a kid!
